Subject Index

Acid phosphatase
Granulated wood ash and a 'N-free' fertilizer to a forest soil — effects on P availability 127
Ash
Chemical properties of ash derived from *Eucalyptus* litter and its effects on forest soils . 107
Biomass allocation
Nutrition and productivity of *Pinus radiata* following harvest disturbance and fertilization of coastal sand dunes 5
Biosolid application
Long-term effects of heavy applications of biosolids on organic matter and nutrient content of a coarse-textured forest soil 165
Boreal forest
Tillage of compacted haul roads and landings in the boreal forests of Alberta, Canada .. 179
Clear-felling
Nitrogen losses and soil water acidity after clear-felling of fertilized experimental plots in a *Pinus sylvestris* stand 69
Compacted soil
Tillage of compacted haul roads and landings in the boreal forests of Alberta, Canada .. 179
Eucalyptus litter
Chemical properties of ash derived from *Eucalyptus* litter and its effects on forest soils . 107
Fertilized plot
Nitrogen losses and soil water acidity after clear-felling of fertilized experimental plots in a *Pinus sylvestris* stand 69
Fine roots
Nutrition and productivity of *Pinus radiata* following harvest disturbance and fertilization of coastal sand dunes 5
Growth
Impact of whole-tree harvesting on second-rotation growth of Sitka spruce: the first 10 years 39
Haul road tilling
Tillage of compacted haul roads and landings in the boreal forests of Alberta, Canada .. 179
Heathland
The effects of sewage sludge application to a heathland site prior to planting with Sitka spruce 151
Labile phosphorus
Granulated wood ash and a 'N-free' fertilizer to a forest soil — effects on P availability 127
Microbial phosphorus
Granulated wood ash and a 'N-free' fertilizer to a forest soil — effects on P availability 127
Municipal sludge
Use of municipal sludge to restore and improve site productivity in forestry: The Pack Forest Sludge Research Program 137
Nitrogen loss
Nitrogen losses and soil water acidity after clear-felling of fertilized experimental plots in a *Pinus sylvestris* stand 69

Nutrient content
Long-term effects of heavy applications of biosolids on organic matter and nutrient content of a coarse-textured forest soil 165
Nutrient cycle
Timber harvesting and long-term productivity: weathering processes and soil disturbance 55
Nutrition
Impact of whole-tree harvesting on second-rotation growth of Sitka spruce: the first 10 years 39
Nutrition and productivity of *Pinus radiata* following harvest disturbance and fertilization of coastal sand dunes 5
Organic matter
Long-term effects of heavy applications of biosolids on organic matter and nutrient content of a coarse-textured forest soil 165
Organic waste
Potential use of plant residue wastes in forests of northwestern Germany 87
Phosphorus availability
Granulated wood ash and a 'N-free' fertilizer to a forest soil — effects on P availability 127
Picea
Granulated wood ash and a 'N-free' fertilizer to a forest soil — effects on P availability 127
Impact of whole-tree harvesting on second-rotation growth of Sitka spruce: the first 10 years 39
The effects of sewage sludge application to a heathland site prior to planting with Sitka spruce 151
Pinus
Nitrogen losses and soil water acidity after clear-felling of fertilized experimental plots in a *Pinus sylvestris* stand 69
Nutrition and productivity of *Pinus radiata* following harvest disturbance and fertilization of coastal sand dunes 5
Plant ash
Chemical properties of ash derived from *Eucalyptus* litter and its effects on forest soils . 107
Plant residue waste
Potential use of plant residue wastes in forests of northwestern Germany 87
Productivity
Nutrition and productivity of *Pinus radiata* following harvest disturbance and fertilization of coastal sand dunes 5
Timber harvesting and long-term productivity: weathering processes and soil disturbance 55
Use of municipal sludge to restore and improve site productivity in forestry: The Pack Forest Sludge Research Program 137
Sand dune forest
Nutrition and productivity of *Pinus radiata* following harvest disturbance and fertilization of coastal sand dunes 5
Second-rotation growth
Impact of whole-tree harvesting on second-rotation growth of Sitka spruce: the first 10 years 39
Sewage sludge
The effects of sewage sludge application to a heathland site prior to planting with Sitka spruce 151
Sludge application
Long-term effects of heavy applications of biosolids on organic matter and nutrient content of a coarse-textured forest soil 165

The effects of sewage sludge application to a heathland site prior to planting with Sitka spruce 151
Use of municipal sludge to restore and improve site productivity in forestry: The Pack Forest Sludge Research Program 137
Soil
Chemical properties of ash derived from *Eucalyptus* litter and its effects on forest soils . 107
Long-term effects of heavy applications of biosolids on organic matter and nutrient content of a coarse-textured forest soil 165
Potential use of plant residue wastes in forests of northwestern Germany 87
Soil disturbance
Timber harvesting and long-term productivity: weathering processes and soil disturbance 55
Soil water acidity
Nitrogen losses and soil water acidity after clear-felling of fertilized experimental plots in a *Pinus sylvestris* stand 69
Tillage
Tillage of compacted haul roads and landings in the boreal forests of Alberta, Canada .. 179
Timber harvesting
Timber harvesting and long-term productivity: weathering processes and soil disturbance 55
Waste management
Potential use of plant residue weastes in forests of northwestern Germany 87
Use of municipal sludge to restore and improve site productivity in forestry: The Pack Forest Sludge Research Program 137
Weathering
Timber harvesting and long-term productivity: weathering processes and soil disturbance 55
Whole-tree harvesting
Impact of whole-tree harvesting on second-rotation growth of Sitka spruce: the first 10 years 39
Wood ash
Granulated wood ash and a 'N-free' fertilizer to a forest soil — effects on P availability 127
